# LAMP Words For Life 84 Full Core Word Activity - Rain Cloud in a Jar

Be a rain maker! With a clear container of water, food coloring, and shaving cream you can make it rain with your AAC communicator. Pour water into a clear container until it is 3/4 full. Add a shaving cream "cloud" in the jar just over the top. Use droppers to squirt colored water on top of the cloud. Wait and watch as the colored water is heavier than the cloud and "rains" down. As the communication partner, whether you are a family member, teacher, therapist or friend, use these words as you talk to model where they are located and how powerful they can be. Look for opportunities to teach and model these words while learning about rain this month.
