LAMP Words For Life 84 Full

Core Word Activity - Game Night

It's game night! Games are lots of fun to play with family and friends. This month use these words to play different kinds of games. You can play a card game or a board game with a spinner or dice. Some AAC communicators may play the game by directing the actions of others with the words on their communication systems. However you play, use these words to let everyone have a turn!

As the communication partner, whether you are a family member, teacher, therapist or friend, use these words as you talk to model where they are located and how powerful they can be. Look for opportunities to teach and model these words as you play games this month!
